Eric offering encouraging advice to Mav during recent maintenance on the Shelter Shed

I'm sure you would all agree that despite the particularly warm weather we have been experiencing this summer, the field is in fantastic shape for this time of the year.

Our Field Manager Ken 'Maverick' Heinz has taken up the challenge of this demanding role and has done a great job of keeping our patch of grass in tip top shape. Of course he is always ably assisted by the preceding manager Eric Gooch who seems to be the 'go to' man at KAMS. Well done gentlemen on your terrific efforts.

Managing the field is one thing but that grass needs to be mowed weekly during summer and the mowing team expertly managed by Frank "Chopper" Jensen have to be congratulated as well for giving members a wonderful surface to fly from.

Last Sunday January 9th saw a handful of pilots braving the heat and flies but a most enjoyable time was had as the wind was favourable until about 3pm when the sou' wester really blew in.

Conditions for flying can only really improve from here and we all look forward to the calmer winds and cooler temperatures Autumn brings.

Just reminder that at our monthly General Meetings, decisions are made that affect the entire membership. Please try to attend at least a few meetings through the year when you can have your say on the running of our club.

See you on the flightline.

A LITTLE BIT OF KAMS NOSTALGIA

Here's a couple of shots from the mid nineties of Ken Wansbrough. Note the absence of the mound to the east of the field and the condition of the field surface.

HAVE YOU BEEN BITTEN BY THE SCALE BUG?

If you love aeromodelling, you must have dreamt of flying a scale aircraft at some time.

Or do you fly scale already and want to become more involved in this area of our hobby?

The Scale Society needs AWA members from all clubs to carry on the tradition of scale modelling and flying. And you don't have to be a scratch building genius to be part of it.

If your passion is golden era, warbirds or civilian aircraft we would love you to become part of the scale society. There's no fee to join or tasks to fill, simply become involved during the many scale rally's held at clubs throughout the year.

There are only a few competitions and ARF's can be flown at most of them. Flying scale aircraft is not difficult and very rewarding and you'll find the scale fraternity are a great bunch of people who love welcoming new flyers.

General Business

Email of complaint regarding the excessive Noise of aircraft flown on Friday 31 December 2010 by a KAMS Member.

Member discussed at length and agreed this member is presenting an ongoing noise issue with all his petrol engine aircraft. Agreed to issue a warning letter to this Member and restrict his flying to non petrol models until each of his petrol models is modified to an acceptable standard to be flown at KAMS. Noise Officers to inspect each model.

Email of complaint regarding the excessive Noise of aircraft flown on Friday 31 December 2010 by 3 other members:

Agreed by Committee to issue a polite 1st warning letter to each of these 3 members requesting they advise the Committee in writing what steps they intend to take to quiet their aircraft.

Due to recent damage to a pathway by a member driving his vehicle over same an email is to be sent to the membership reminding all that driving off of the carpark is not to occur. The damage couldn't be definitely connected to that persons vehicle, as the damage to the path was only noticed after the event.

Discussion held on removing the 2 year limit on serving on the Executive Committee. By-Law 18.(7) states:

- 18.(7) A person elected to a specific office on Executive Committee shall not hold that same office longer than 2 years consecutively.

To be further considered at the next General Meeting.

KAMS Bring and Buy Day Saturday 05 February 2011

The Bring and Buy Day will be held on Saturday morning,
05 February 2011,
commencing at **9am** at KAMS Field
in the under cover area next to the Canteen.

Come along with all that old RC Stuff that's lying around the house
or workshop and turn junk into cash for yourself.

Set up a table with your flying chum and display your stuff
and then let the bartering begin.

No entry costs and no buyer fees, just good clean fun
trying to get that bargain...or

Trying to offload that swarf from your workshop to
someone else's workshop.

Carl Furfaro has generously offered to run this great event on the day and

The KAMS Committee will be running a free sausage sizzle during
the morning also (well, until we run out of snags anyway).

See you there!

Remember: Caveat Emptor (Let the buyer beware!)
